The Artist

"Moorea, Fiji, Bali, Mauritius, Cape Verde…
Why are most of the places that dreams are made of seemingly inaccessible to ordinary people?
Is it perhaps because they are closer to heaven?"

Pierre Budestschu lives and works in Paris. He divides his time between different activities: graphic design, illustration and, more recently, painting.

He signs his paintings with his father's name and his graphic design works as Voyou or Bud. Don't ask him why.
